

ORE AI INNOVATION AWARD

Best AI Creation for ORE | September 2026

Hello **Post-Trade Solutions team**,

You're invited to take part in the **ORE AI Innovation Award 2026**, a September competition — open to all Post-Trade Solutions employees — to recognize the best AI creation built for ORE. Fly solo or bring a team; you can enter more than one project.

About the Award

This is a chance to showcase work that is original, useful, visually strong, or simply the most compelling AI idea for the ORE ecosystem. Winners will be announced at the **ORE 10-year anniversary celebration in Germany**.

Everyone builds with **GitHub Copilot**, and a local, zero-token script captures your usage automatically — nothing to track by hand.

KEY DATES

Applications Open: September 1, 2026

Applications Close: September 30, 2026, 23:59 UK time

Winners Announced: At the ORE anniversary event in Germany

Award Categories

-  **AI Game Changer Award** — The strongest all-around entry
-  **Boldest AI Idea Award** — The most original concept and biggest creative leap
-  **Customer Wow Award** — The best-looking, most delightful user experience
-  **Workday Hero Award** — The idea that quietly makes everyone's workday better
-  **Crowd Favorite Award** — The people's champion, decided by community vote
-  **J.A.R.V.I.S.'s Pick** — The AI judge's favorite, based on build quality and Copilot telemetry

Every project is automatically entered into **all six categories** — there's no category to pick on the form.

What we want to see: thoughtful AI work that feels relevant to ORE, well executed, and worth celebrating in front of the wider team.

Submit Your Project

What to Submit

- A completed **SUBMISSION.md** — the problem, your approach, technologies/models, setup, and value
- The working project — source code, or a hosted demo / recording if it can't be run locally
- Screenshots or a short demo wherever they help tell the story
- Names of contributors (individual or team)

- Your untouched, auto-generated Copilot usage files

Questions? Check out our full [rules & FAQ](#) or reach out to us at alexis.david@lseg.com.

We look forward to seeing what the community builds.

Best regards,

The ORE AI Innovation Award Team
